What is Gleichen's Greatest Need ?

ARTICLE I -By Rev R N Mathegon, B A.

ANY things might be mentioned as real needs However, we venture to suggest that our toen's greatest need is broad-uninded, public-spirited citizens, filled with orders enthusiastic faith in the future of our filled with srdent enthulastic lafth in the fature of our mon, proud of the district, in spike we live and prouder still of Canadian citizenship. Are, our town needs many material things, but before see tay here to make much progress we must feel the impact of that united spirit among our people whisly will enable us to Jurget personal givennees, willing of beaths estimates squirely, give time, energy and ligitlest unsparingly, and work with a common purpoyer for the growth and prosperity of our town, the weltyer of all our people

The above is the first of a series of articles The Call hopes to produce under this heading and we invite mon and women to send us a paragraph of their views along this line, believing good may result.

WEDNESDAY, APRIL 20, 1921

Many members of the Gleichen Board of Trade are quandary what to do with the Rest Room. True, last month the register shows about forty-five ladies made use of the rooms, and it is said quite a number of others visited them but neglected to register. The cost of fitting up the ooms amounted to about \$300 and the up-keep is about \$20 00 a month or \$240 0) a year. The dance last Friday to raise funds for the un-keep was a most enjoyable affair. but was attended by only about half a dozen of those who might make use of the rooms. Some Board members, who do not dance or use the rooms nave paid as high as \$15 00 to help in this matter. They now question whether or not their efforts are appreciated as few take the trouble to express themselves. No doubt this subject will be most thoroughly discussed at the pext oceting of the Board.

One of our budding spring posts writes us asking What kind of postry does The Call want anyway?" The Call is not in need of any brand of peetry, but if our friend has a really bad attack and meet do something we would uggest he try something serious like this:

Little grains of powder, Little dabs of paint; Make a girl of forty, Look like what she aint

Better still see a doctor and regularly help ma wash the dishes, also bring in the coal

Under the heading "What is Gleichen's Greates Need?" we intend to run on our first page a paragraph for the next few weeks written by men and women of this town and district, Rev. Mr. Matheson is the first to contribute to this and his views appear in this issue. We invited others to follow and each will be published in turn as they arrive at this office. In this way we hope much question over on broad principles and then put your pen to work.

The Alberta Division of the Canadian Red Cross Society is undertaking a campaign for the enrollment of nembers early in June and last week a gentleman was in Gleichen to endeavor to re-organize the local branch, which it is expected will shortly be effected. The main object is, we understand, to be ready in future to help in case of epedemics in any part of Alberta, which is certainly amost worthy matter for consideration.

Doing one thing-"My Daughter o my Daughter!" Woodruff Place, 571 E. Drivje. Room and board; modern, home privileges; keutleman preferred. Daughter wishes congenial soom-mate.

The above advertisement is the result of trying to do two things at once. The result of trying to do too many things in one advertisement is not often funny.—but it is generally unsatisfactory.

Private Peat, who has travelled all over Canada and the United States, speaking at the Board of Trade a weel ago said he considered Gleicken had the finest soldiers monument he had seen and paid some very nice complinents to those who erected it. Coming from a man of Private Peat's calibre and opportunities unsolicited this compliment is greatly appreciated.

At the annual meeting of the As sociation of National Advertisers a few weeks ago the results of a questionsire showed that for 1921

65 per cent will spend more,
20 per cent will spend the same,
15 per cent will spend less
for advertising than during set year. Ponder over this

Hon. Duncan Marshall is quoted as saying seed oats will be 50 cents per bushel delivered at the station. At the time of speaking he said the Department of Agriculture had not bought any for districts outside the organized municipalities, but he expected they would have to pay

Say you read it in The Call—advertisers like to near you say it—it cheers them up and they will offer you more and bigger bargains.

Do not put your wishbone where your back-bone The Royal Bank of Canada Bulle ght to be - E J. Mahar.
